

# MST FIELD HOCKEY

# MST

HIGH PERFORMANCE TURF

**THE MST FIELD HOCKEY TURF SYSTEM WAS DESIGNED FOR THE DISCRIMINATING HOCKEY PLAYERS -- PERFECT BALL ROLL, BOUNCE, SPEED AND DURABILITY, WITHOUT ABRASIVENESS**

The combination of texturized, 100% "polyethylene" fibers, total fiber height, the extremely close proximity of each of the fibers next to each other, and, the unique "stable-back" system result in the state-of-the-art, loose laid field hockey surface.

## Recommended Applications:

THIS IS THE PERFECT FIELD HOCKEY SURFACE!  
INTENDED FOR USE WITH, OR WITHOUT WATER.
