

# MST "XF" NO-FILL TURF MST

HIGH PERFORMANCE TURF

Combination of durable slit film fibers interspersed with our proprietary blend of texturized ("curly") fibers.

When looking for a synthetic turf without the mess of infill particles, MST XF No-Fill turf is the way to go.

Recommended Applications:

MST XF No-Fill turf is primarily intended for indoor applications, or for batting cages (indoors or outdoors), as well as for bull pens. When using for sports purposes, it is recommended that a performance shock pad be used.

MST "XF" NO-FILL TURF SPECS
